

Symbiosis

Our goal for today is to answer these questions:

- * What is symbiosis?
- * What are the different kinds of symbiosis?
- * What are some examples of symbiosis?

What is symbiosis?

the act of living together

Symbiosis

What it means:

- *Two organisms that live together
- *Temporarily or for a longer time
- *At least one of the organisms *benefits* from the relationship

What are the different kinds of symbiosis?

Mutualism

both organisms
benefit

Competition

two species
share a
requirement
for a limited
resource

Parasitism

one organism
benefits
one organism
is **harmed**

Commensalism

one organism
benefits
one organism
is **unaffected**

Predation

the act of
preying for
food

Mutualism

Organism One

Organism Two

Commensalism

Organism One

Organism Two

Parasitism

Organism One

Organism Two

Predation

Predator

Prey

Competition
